

[Econap 1.3.0.0 –](#)

The screenshot shows the Stand-Bye! application window. At the top, there's a logo with a lightning bolt and the text "Stand-Bye!" next to it, followed by the tagline "The ecofriendly next Generation". Below the title bar, there are tabs: General, Thresholds, Exception Processes (which is underlined), Advanced Settings, and About. The main area contains a table with two rows:

Name	Path
Explorer	C:\Windows\Explorer.EXE
Softpedia	C:\Softpedia\Softpedia.exe

To the right of the table, there's a note in a blue box: "If at least one of the set up processes is running, the program will prevent the system from changing over to standby mode." Below this note are three buttons: "Add Process From File", "Add current running Process", and "Remove Process". At the bottom right of the window, there are buttons for "Show Details" (with a switch), "Cancel", and "Save".

v0.7.0 PORTABLE
